

Dräger X-plore® 9000 Supplied Air System

The Dräger X-plore® 9000 supplied air system is designed for light duty industrial applications that require an independent air supply. This modular system provides comfortable and reliable respiratory protection in accordance with EN 14594:05.

Via a 10-metre compressed air hose, the Dräger X-plore® 9000 is connected to a source of breathing air (pressurised ring main, mobile air source, or a compressor). According to the specific application the user can choose a suitable headpiece. As part of the modular system the hoods, helmets, and visors of the Dräger X-plore® 7000 product range, the Dräger X-plore® 4740 half masks, and the Dräger X-plore® 6300/6500 full face masks can be connected to the X-plore® 9000 via a corrugated hose.

The Dräger X-plore® 9000 is characterised by a particularly low noise level and is very light in weight, enabling the user to work safely for long periods, while benefiting from excellent comfort.

Completing the supplied air system is an optional air conditioning unit. This filter station removes particles, adhesions like oil mists and unpleasant odours from industrial compressed air (hygienically clean according to EN 12021) and therefore substantially improves the quality of the inhaled air. Up to two users can be connected to the filter station at the same time.

Discover the benefits of the Dräger X-plore® 9000 for yourself.

Dräger X-plore® 9000:
Belt unit for a constant air supply

An adjustment valve on the belt unit enables the user to regulate the air supply between 160 and 400 l/min and therefore adapt the air flow to his or her individual needs. The permissible inlet pressure from the air source into the belt unit is between 3 and 10 bar.

TECHNICAL DATA

Inlet air pressure	3 to 10 bar
Air flow rate	min. 160 l/min. to max. 400 l/min.
Weight	200 g
Noise level	61 dB
Working temperature and humidity	+10 to +40 °C at 20 to 80% RH
Certification	EN 14594:05, Class 2A

ORDER INFORMATION

Dräger X-plore® 9000 Belt Unit	R 56 660
Silencer	R 56 658
Belt for Dräger X-plore® 9000	33 53 925
Corrugated hose for the connection of the Dräger X-plore® hoods, helmets and visors	R 56 657
Corrugated hose for the connection of the Dräger X-plore® 4740 half masks, Dräger X-plore® 6300 and 6500 full-face masks	R 56 656
